ASG PRESS RELEASE – CYBER SLEUTH REPORTS

At ASG, we are now officially Certified Social Media Intelligent Experts through the most recognized nationally accredited training organization, The McAfee Institute. This 200-hour course is designed to help investigators and law enforcement gain the knowledge and skills to conduct effective online investigations in a timely and accurate manner. We have learned many tricks and insights to utilize in our social media and online investigations and we are excited to share this knowledge with you and serve you in the best way possible.

With the rise of social media, it's no surprise that exploring the deep web and using this information could be valuable for your next claim. We have conducted online database and background reports for many years, and in expanding our knowledge and this service, we have decided to begin a new template for our background investigations called the Cyber Sleuth Report. With a focus on social media, in conjunction with the nationwide background information available to us through the countless programs and accounts, this report is your all-inclusive background investigation solution.

CONTACT US TO RECEIVE 20% OFF YOUR FIRST CYBER SLEUTH REPORT!

SPRING CLEANING = CLEAN UP YOUR CASES!

The report is in, and the nice weather has finally arrived. This means cleanup and outdoor activities are underway. Frequent observed activities for this time of year include claimants working outdoors, attending sporting and community events, fishing, motorcycling and bike riding, and the list goes on. What are your claimants doing this weekend?
